Summary

I am an innovative and detail-oriented Fresher Front End Developer passionate about creating responsive and user-friendly websites. My proficiency in HTML, CSS, Bootstrap, JavaScript, React and wordpress equips me to develop user-facing features, maintain technical documentation, and uphold front-end coding standards.

Skills

React Js • CSS • Javascript • Wordpress • HTML • Tailwind • Tailwind CSS • Elementor • Bootstrap • Web Design • Responsive • Frontend • Elementor Pro

Projects

Starbucks Website

The Starbucks project replicates the aesthetic and functionality of the Starbucks website, showcasing coffee product . The focus is on creating a user-friendly interface with responsive design

Technologies Used:

HTML: Structure of the webpage, including headers, footers, product listings, and navigation.

CSS: Styling elements to match Starbucks' branding, including colors, fonts, and layout design. Implemented responsive design for optimal viewing on various devices.

Portfolio Website

The Personal Portfolio Website showcases individual skills, projects, and professional experiences. It serves as a digital resume and a platform to highlight personal brand and creative work.

Technologies Used:

HTML: Structure of the website, including sections for about, projects, skills, and contact information.

CSS: Styling to create a visually appealing layout that reflects personal branding, utilizing responsive design for accessibility on various devices.

JavaScript: Enhancements for interactive features, such as smooth scrolling, project filtering, and dynamic content loading.

Digital Agency Website

The Digital Agency Website is a professional platform designed to showcase the agency's services, portfolio, and team. Built with WordPress and Elementor, it features a modern, visually appealing layout that enhances user engagement and provides essential information.

Technologies Used:

WordPress: Content management system for easy website management and updates.

Elementor: Drag-and-drop page builder for designing custom layouts and responsive pages without coding.

ECommerce Website

Brook Furniture is an online platform that allows users to browse, select, and purchase various types of furniture items, such as sofas, chairs and storage solutions.

WordPress: The core content management system (CMS) that powers the website.

Elementor: A drag-and-drop page builder plugin for WordPress that helps design custom layouts for pages, posts, and product pages without needing to write code.

Elementor Pro: The premium version of Elementor, providing additional features and design flexibility, including advanced widgets, theme builder, popup builder, dynamic content, and Woo Commerce integration.
